## INTUITIVE SKIN CARE

Let's take a look at the top-selling department store products. While it's impossible to compare the quality of Glimpse with what is currently on the market, we can compare the pricing of the four products; cleanser, toner, serum and moisturizer (this includes the eye & night cream you need with other products – but do not need with Glimpse).

- **Aveda --- \$278 per month.**
- **Clinique --- \$283 per month.**
- **Elizabeth Arden --- \$407 per month.**
- **Estee Lauder --- \$514 for the month.**
- **Guerlain --- \$560 per month.**
- **Kiehl's --- \$193 per month.**
- **Lancome --- \$686 per month.**
- **ROC --- \$303 per month.**
- **Shiseido --- \$343 per month.**

All of these companies combined sell BILLIONS of dollars worth of these products. The market exists and the market is hungry for products that (a) actually, truly work and (b) do so without all the chemicals and additives in the current market products.

The Glimpse product line is so exclusive, spas and beauty salon owners should be at the top of your list of people to introduce to this exceptional line of products.

Glimpse will forever change your XanGo business!!
