

## Glimpse After 1 Application!

Venessa

I have wonderful news--well at first it really scared us--Vanessa was skating last night for 2.5 hours and my husband picked her up.

When she saw me she said mommy I am so itchy and she took off her skating dress and anywhere the dress had contacted her skin it was so red and swollen--plus it was going down her legs.

I remembered talking with Terry in the morning about using the Glimpse gel cleanser to relieve pain & itching so, I took out the tube and covered her body in the gel cleanser...

WELL GLIMPSE is so awesome--in about three hours it was so much better and by this morning--well see the pictures for your self.....the marks on her back on the after shot is just sleeping wrinkles. It is so amazing to see how it works....

Also Tory had glass cuts on her face from her accident and she used her glimpse since last weeks and the cuts are completely gone.....

*Thanks so much,*  
**LeAnn**
